Apologies...

This freebie used to contain 4 variations on the scoot game. However, this violated TPT freebie guidelines which states that freebies shouldn't be MORE than about 10 pages. This is still MORE than 10 pages but MUCH closer...

So I've added the other games as a paid product for just \$2! If you are interested it is available here:

I do apologize if you'd saved this for later to come back and find it wasn't what you expected!

HOW TO PREPARE/PLAY:

- ☆ Print the task cards. Print 2 to a page to save paper. Laminate if you want (I don't bother)
- ☆ Place one card on each student's desk. There are 24 cards, if you have more kids (!!) you could make "brain break" stops or have another fast activity. If you have fewer, just use the number of cards you need.
- ☆ Kids start at their own desk and do the task card. Make sure they are writing in the correct space on their recording sheet.
- ☆ When you shout "SCOOT!" everyone moves to the next desk and completes that task card, recording on their recording sheet.

Name: _____

FRIENDS of 10

SCOO+!

Look at each card. Fill in your solution in the correct square as you move around the room.

1	2	3	4	5	6
7	8	9	10	11	12
13	14	15	16	17	18
19	20	21	22	23	24

Look at the ten frame. How many more do you need to make 10?

Write the 10s fact.
